

Claim Amendments

1. (currently amended) A certified mailer for attachment to an object to be mailed by a sender to a recipient, said ~~assembly~~ mailer comprising:

(a) a single sheet having a first and second surface, said sheet comprising an integral one piece structure, said sheet comprising:

- (i) a first portion comprising a return receipt card ~~a first detachable form~~ comprising an integral ~~one piece~~ part of said sheet, ~~said first detachable form~~ defined in said single sheet by a frangible boarder, said ~~first detachable form~~ return receipt card being detachable from said sheet along said frangible boarder, said ~~first detachable form~~ return receipt card ~~including indicia indicative of a predefined use for said first detachable form~~; and
- (ii) a second portion comprising a recipient address label for recipient indicia.

2. (currently amended) The mailer of claim 1, wherein said first portion comprises a first panel and said second portion comprises a second panel, said sheet includes first and second panels connected to each other at a first interface.

3. (original) The mailer of claim 2, wherein said second panel is connected to said first panel along at least a portion of said frangible boarder of said first detachable form.

4. (original) The mailer of claim 2, wherein said first interface is defined by a foldline.

5. (canceled)

6. (currently amended) The mailer of claim 2 ~~or 5, further~~ comprising a third panel connected to at least one of said first and second panels at a second interface.

7. (original) The mailer of claim 6, wherein said second interface is defined by a foldline.

8. (original) The mailer of claim 6, wherein at least a portion of said third panel is detachable from said sheet.

9. (currently amended) The mailer of claim 8, wherein said at least a portion of said third panel comprises a ~~second detachable form~~ certified mail receipt comprising an integral ~~one piece~~ part of said sheet, said ~~second detachable form~~ certified mail receipt defined in said single sheet by a frangible boarder, said ~~second detachable form~~ certified mail receipt being detachable from said sheet along said frangible boarder, ~~said second detachable form including indicia indicative of a predefined use for said second detachable form.~~

10. (canceled)

11. (original) The mailer of claim 8, wherein said at least a portion is defined by a frangible boarder.

12. (original) The mailer of claim 8, wherein all of said third panel is detachable from said sheet.

13. (currently amended) The mailer of claim 1, wherein said ~~first detachable form~~ return receipt card comprises first and second surfaces ~~corresponding to said first and second surfaces of said sheet~~, said first surface including indicia thereon defining an area for entering sender indicia.

14. (currently amended) The mailer of claim 13, wherein said second surface of said ~~first detachable form~~ return receipt card includes indicia thereon defining an area for entering recipient indicia.

15. (currently amended) The mailer of claim 13, wherein said second surface of said ~~first detachable form~~ return receipt card includes recipient indicia thereon.

16. (currently amended) The mailer of claim 1, wherein said ~~first detachable form~~ return receipt card comprises first and second surfaces ~~corresponding to said first and second surfaces of said sheet~~, said first surface including sender indicia thereon.

17. (currently amended) The mailer of claim 16, wherein said second surface of said ~~first detachable form~~ return receipt card includes indicia thereon defining an area for entering recipient indicia.

18. (currently amended) The mailer of claim 16, wherein said second surface of said ~~first detachable form~~ return receipt card includes recipient indicia thereon.

19. (canceled)

20. (currently amended) The mailer of claim 1, wherein said sheet ~~further~~ comprises a ~~second detachable form~~ certified mail receipt comprising an integral ~~one~~ piece part of said sheet, said ~~second detachable form~~ certified mail receipt defined in said single sheet by a frangible boarder, said ~~second detachable form~~ certified mail receipt being detachable from said sheet along said frangible boarder, ~~said second detachable form including indicia indicative of a predefined use for said second detachable form.~~

21. (canceled)

22. (currently amended) The mailer of claims 19 or 21, wherein said ~~mailing is a special services mailing and said~~ sheet includes ~~special services~~ tracking indicia ~~indicative of said special services.~~

23. (canceled)

24. (currently amended) The mailer of claim 1, ~~further~~ comprising adhesive disposed on at least a portion of said second surface of said sheet whereby said sheet may be secured to said object without securing said detachable form to said object.

25. (original) The mailer of claim 24, wherein said adhesive must be actuated in order to secure said sheet to said object.

26. (original) The mailer of claim 24, wherein said adhesive is actuatable by moistening said adhesive

27. (original) The mailer of claim 24, wherein said adhesive is covered by at least one protective strip, said adhesive being actuatable by removing said at least one protective strip.

28. (currently amended) ~~The mailer of claim 1, wherein~~ A certified mailer for attachment to an object to be mailed by a sender to a recipient, said mailer comprising:

(a) a single sheet having a first and second surface, said sheet comprising an integral one piece structure, said sheet comprising:

(i) a first detachable form comprising an integral part of said sheet defined in said single sheet by a frangible boarder, said first detachable form comprises comprising first and second surfaces, said first surface of said first detachable form corresponding to said first surface and second surfaces of said sheet, and said first detachable form comprises comprising first and second portions

connected to each other at a foldline, whereby prior to attachment to the object, said first portion may separated along a respective portion of its frangible boarder and folded along said foldline such that the second surface of said first portion is facing the second surface of said second portion forming a return receipt card which is detachable from said sheet along said frangible boarder of said second portion; and

(ii) a recipient address label for recipient indicia.

29. (original) The mailer of claim 28, wherein said mailer includes adhesive disposed on at least a portion of said second surface of at least one of said first and second portions.

30. (original) The mailer of claim 28, wherein said first surface of said first detachable form includes indicia thereon related to the sender and recipient.

31. (original) The mailer of claim 30, wherein said indicia includes form indicia thereon defining at least one area for entering sender indicia or recipient indicia.

32. (original) The mailer of claim 28, wherein said first surface of said first portion includes sender indicia thereon, and said first surface of said second portion includes recipient indicia thereon.

33. (original) The mailer of claim 28, wherein said first surface of said first detachable form includes all form indicia thereon necessary for use of said first detachable form as a domestic return receipt.

34. (currently amended) The mailer of claim 28, wherein said sheet includes an anchor portion connected to said second portion ~~of said first detachable form~~ along at least a portion of said frangible boarder, said anchor portion comprising first and second

surfaces ~~corresponding to said first and second surfaces of said sheet~~, said sheet comprising adhesive disposed on at least a portion of said second surface of said anchor portion.

35. (currently amended) The mailer of claim 34, wherein said sheet includes first and second panels connected to each other, said first detachable form is being disposed within said first panel and said recipient address label is being disposed within said second panel.

36. (original) The mailer of claim 35, wherein said second panel is connected to said first panel along at least a portion of said frangible boarder of said first detachable form.

37. (currently amended) The mailer of claim 34, ~~further~~ comprising a ~~second detachable form~~ certified mail receipt comprising an integral ~~one piece~~ part of said sheet, said ~~second detachable form~~ certified mail receipt defined in said single sheet by a frangible boarder, said ~~second detachable form~~ certified mail receipt being detachable from said sheet along said frangible boarder, ~~said second detachable form including indicia indicative of a predefined use for said second detachable form.~~

38. (currently amended) The mailer of claim 37, wherein said sheet includes first and second panels connected to each other, said first detachable form being disposed within said first panel and said recipient address label being disposed within said second panel, and said ~~second detachable form~~ is certified mail receipt being disposed within said second panel.

39. (currently amended) The mailer of claims 37 or 38, wherein at least a portion of said frangible boarder of said ~~second detachable form~~ certified mail receipt is adjacent said recipient address label.

40. (currently amended) The mailer of claim 39, wherein a portion of said frangible boarder of said ~~second detachable form~~ certified mail receipt is adjacent said first detachable form.

41. (canceled)

42. (currently amended) The mailer of claims 28 or 37, wherein said ~~mailing is a special services mailing and said sheet includes special services~~ tracking indicia indicative of said ~~special services~~.

43. (canceled)

44. (currently amended) The mailer of claim 28, ~~further~~ comprising a ~~second detachable form~~ certified mail receipt comprising an integral ~~one piece~~ part of said sheet, said ~~second detachable form~~ certified mail receipt defined in said single sheet by a frangible boarder, said ~~second detachable form~~ certified mail receipt being detachable from said sheet along said frangible boarder, ~~said second detachable form including indicia indicative of a predefined use for said second detachable form.~~

45. (currently amended) A method of preparing an object for certified delivery comprising the steps of:

- (a) providing a single sheet having a first and second surface, said sheet comprising an integral one piece structure, said sheet comprising a ~~first detachable form~~ return receipt card and a recipient address label for recipient indicia, said ~~first detachable form~~ return receipt card defined in said single sheet by a frangible boarder, said ~~first detachable form~~ return receipt card being detachable from said sheet along said frangible boarder, ~~said first detachable form including indicia indicative of a predefined use for said first detachable form; and~~

- (b) attaching said sheet to the object while said ~~first detachable form~~ return receipt card and said recipient address label remain integral to said sheet.

46. (currently amended) The method of claim 45, ~~further~~ comprising the step of including sender indicia on said ~~first detachable form~~ return receipt card.

47. (currently amended) The method of claim 45, ~~further~~ comprising the step of including recipient indicia on ~~first detachable form~~ return receipt card.

48. (currently amended) The method of claim 45, ~~further~~ comprising the step of including recipient indicia on said recipient address label.

49. (currently amended) The method of claim 45, ~~further~~ comprising the step of providing ~~second detachable form~~ certified mail receipt as a part of said sheet, said ~~second detachable form~~ certified mail receipt defined in said sheet by a frangible boarder, said ~~second detachable form~~ certified mail receipt being detachable from said sheet along said frangible boarder, ~~said second detachable form including indicia indicative of a predefined use for said second detachable form.~~

50. (currently amended) The method of claim 49, ~~further~~ comprising the step of detaching said ~~second detachable form~~ certified mail receipt from said sheet after the step of attaching said sheet to the object.

51. (canceled)

52. (canceled) The method of claim 51, wherein the step of designating the object for delivery by a special service comprises the step of including on said sheet special services indicia indicative of said special services.

53. (currently amended) The method of claim 45, wherein said object includes an edge, the method ~~further~~ comprising the step of providing said sheet with first and second panels connected to each other at a foldline, said ~~first detachable~~ return receipt card is being disposed within said first panel and said recipient address label is being disposed within said second panel and wherein the step of attaching said sheet to the object includes the step of aligning said ~~fold-line~~ foldline with said edge.

54. (re-presented - formerly dependant claim 34, with revisions) A mailer for attachment to an object to be mailed by a sender to a recipient, said assembly comprising:

- (a) a single sheet having a first and second surface, said sheet comprising an integral one piece structure, said sheet comprising:
- (i) a first detachable form comprising an integral part of said sheet, said first detachable form defined in said single sheet by a frangible boarder, said first detachable form being detachable from said sheet along said frangible boarder, said first detachable form including indicia indicative of a predefined use for said first detachable form, said first detachable form comprising first and second surfaces said first surface of said first detachable form corresponding to said first surface of said sheet, said first detachable form comprising first and second portions connected to each other at a foldline, whereby prior to attachment to the object, said first portion may be separated along a respective portion of its frangible boarder and folded along said foldline such that the second surface of said first portion is facing the second surface of said second portion;
 - (ii) a recipient address label for recipient indicia; and
 - (iii) an anchor portion connected to said second portion of said first detachable form along at least a portion of said frangible boarder, said anchor portion comprising first and second surfaces corresponding to said first and second surfaces of said sheet, said

sheet comprising adhesive disposed on at least a portion of said second surface of said anchor portion.

55. (re-presented - formerly dependant claim 35) The mailer of claim 54, wherein said sheet includes first and second panels connected to each other, said first detachable form being disposed within said first panel and said recipient address label is disposed within said second panel.

56. (re-presented - formerly dependant claim 36) The mailer of claim 55, wherein said second panel is connected to said first panel along at least a portion of said frangible boarder of said first detachable form.

57. (re-presented - formerly dependant claim 37) The mailer of claim 54, further comprising a second detachable form comprising an integral one piece part of said sheet, said second detachable form defined in said single sheet by a frangible boarder, said second detachable form being detachable from said sheet along said frangible boarder, said second detachable form including indicia indicative of a predefined use for said second detachable form.

58. (re-presented - formerly dependant claim 38 with revision) The mailer of claim 57, wherein said sheet includes first and second panels connected to each other, said first detachable form being disposed within said first panel and said second recipient address label being disposed within said second panel, said second detachable form is disposed within said second panel.

59. (re-presented - formerly dependant claim 39) The mailer of claims 57 or 58, wherein at least a portion of said frangible boarder of said second detachable form is adjacent said recipient address label.

60. (re-presented - formerly dependant claim 40) The mailer of claim 59, wherein a portion of said frangible boarder of said second detachable form is adjacent said first detachable form.

61. (re-presented - formerly dependant claim 41) The mailer of claim 57, wherein said second detachable form comprises a receipt for retention by said sender prior to mailing said object

62. (re-presented - formerly dependant claim 42/37 with revision) The mailer of claim 57, wherein said mailing is a special services mailing and said sheet includes special services indicia indicative of said special services.

63. (re-presented - formerly dependant claim 43/42/37) The mailer of claim 62, wherein said special services indicia includes tracking indicia.
